Professional Summary

Full-stack Web Developer with 5+ years of experience building scalable applications using React, Laravel, MySQL, and modern frontend tooling. Strong expertise in UI component systems, REST API development, performance optimization, and CI/CD automation. Proven ability to deliver production-ready features in agile teams.

Experience

Full-Stack Developer

Crew United — Berlin, Germany

[Apr 2023 – Present](#)

- Built 3+ production React applications used by thousands for managing video/audio workflows.
- Developed an internal React UI component library, improving development speed and consistency.
- Designed Laravel APIs and integrated CI/CD pipelines using Jenkins.
- Improved frontend performance through code splitting, caching, and optimized API usage.

Backend Developer

Persch Consult GmbH — Berlin, Germany

[Aug 2022 – Jan 2023](#)

- Enhanced backend performance by optimizing Laravel queries and API endpoints.
- Implemented route-planning features using Google Maps API.
- Improved system reliability and collaborated in agile sprints.

Full-Stack Developer

Tritomit UG — Berlin, Germany

[Aug 2020 – Jul 2022](#)

- Built a full web application from scratch using React + Laravel.
- Designed database schema, backend APIs, and frontend UI components.
- Deployed Docker-based applications on IONOS servers.

Projects & Internships

Web Developer (Intern & Thesis)

Infineon Technologies AG — Munich, Germany

[Oct 2019 – Jul 2020](#)

- Developed a .NET-based application for uploading files, creating chapters, and managing lecture scripts.
- Enabled tutors to manage documents and users more efficiently.
- Built a semantic-web-based application using HTML, CSS, JS to search and retrieve linked academic data.

Web Developer (Intern)

Amaze Infosoft — Ahmedabad, India

[Jan 2017 – Mar 2018](#)

- Created an e-commerce website using HTML, CSS, JavaScript, and PHP.
- Implemented product listings, cart functionality, and admin features.
