PROFESSIONAL SUMMARY

Full-stack Web Developer with 6+ years of experience building scalable applications using React, Laravel, MySQL, and modern frontend tooling. Strong expertise in UI component systems, REST API development, performance optimization, and CI/CD automation. Proven ability to deliver production-ready features in agile teams.

EXPERIENCE

Full-Stack Developer

Apr 2023 – Present

Crew United — Berlin, Germany

- Built 3+ production React applications used by thousands for managing video/audio workflows.
- Developed an internal React UI component library, improving development speed and consistency.
- Designed Laravel APIs and integrated CI/CD pipelines using Jenkins.
- Improved frontend performance through code splitting, caching, and optimized API usage.

Backend Developer

Aug 2022 – Jan 2023

Persch Consult GmbH — Berlin, Germany

- Enhanced backend performance by optimizing Laravel queries and API endpoints.
- Implemented route-planning features using Google Maps API.

Full-Stack Developer

Aug 2020 – Jul 2022

Tritomit UG — Berlin, Germany

- Built a full web application from scratch using React + Laravel.
- Designed database schema, backend APIs, and frontend UI components.
- Deployed Docker-based applications on IONOS servers.

PROJECTS & INTERSHIPS

Web Developer (Intern & Thesis)

Oct 2019 – Jul 2020

Infineon Technologies AG — Munich, Germany

- Developed a .NET-based application for uploading files and managing lecture scripts.
- Built a semantic-web-based application to search and retrieve linked academic data.

Web Developer (Intern)

Jan 2017 – Mar 2018

Amaze Infosoft — Ahmedabad, India

- Created an e-commerce website using HTML, CSS, JavaScript, and PHP.
- Implemented product listings, cart functionality, and admin features.
